Company Introduction

Background

Established in 1995 by founder MJL Becker, MJL Communications provides an end-to-end solution where we supply, install and maintain telecommunications, along with data services, to businesses across South Africa. In addition, we provide simplified, cost-effective communication solutions through a variety of high-quality VoIP, internet, CCTV surveillance and office automation packages.

Infrastructure

MJL Communications is a Gauteng-based company with a selection of different branches and reputable business partners in all major cities across South Africa. Our nationwide availability, expert technical team and collaborative help desk, ensures that we can offer an excellent, rapid response time to any queries or maintenance requests. It is through processes such as these that we are able to maintain our client's IT -/VoIP-networks, office automation products, CCTV and Wi-Fi solutions, among others. We are connected with leading global brands, ensuring that the products and the solutions that we deliver to our clients are of the highest possible caliber, keeping our main objective in mind in order to satisfy your every need.

Vision and mission statement

Vision

At MJL Communications, we will continue to deliver exclusive and superior solutions that will entirely reinvent the understanding of service delivery through a combination of expert communication and technology facilities available. We will remain on the pulse of notable telecommunication products and services that will elevate our client's experiences.

Mission

Our mission is to offer end-to-end solutions that enable our clients to successfully grow their business through innovative technological offerings. We prioritise the expectations of our customers, ensuring that they have full support and full service throughout their dealings with us.

What we offer

At MJL Communications, we offer end-to-end solutions such as

- /// IP On-site / Hosted / Cloud-PBX systems
- /// Wireless, LTE and FIBRE Internet
- /// CCTV and Video Collaboration solutions
- /// Business and Enterprise Copiers and scanners
- /// Print and scan solutions
- /// Voice over Internet Protocol solutions (VoIP)
- /// LAN/WAN IP Networks
- /// Uninterrupted power Supply (UPS) and Solar solutions 1 – 20 kVA
- /// Cabling (Cat 5 –6E) UTP, STP, Molex / overhead / underground / optic fibre
- /// Teams Boardroom and Meeting Rooms workspace solutions
- /// Remote Helpdesk Technical support
- /// IT / Cloud Solutions

Internet and Network

MJL Communications undertakes to fully understand the scope and the usage of your WAN / LAN, your present and future demands for voice, web conferencing and email, and to ensure that we create the most cost-effective network in order to entirely optimise your operational IT efficiency.

Our range of connectivity solutions incorporate Dedicated Fibre, broadband Fibre services as well as Ethernet Cabling, Wireless connection and LTE services, with a choice of bandwidth from 10 Mbps to 10 Gbps (10 000 Mbps). We offer carefully curated service packages for you to choose from. For example, traffic prioritisation allows our clients to deploy VoIP, video conferencing and other demanding applications over their IP virtual private network.

The internet options we offer include

Fibre internet

MJL Communications ensures high-speed, reliable, uncapped internet connectivity for any business or home.

Wireless internet

Even if your area does not have fibre yet, MJL Communications will assist you in getting connected with our wireless network. Here the client can enjoy uncapped, unshaped internet with speeds up to 100 Mbps.

LTE internet

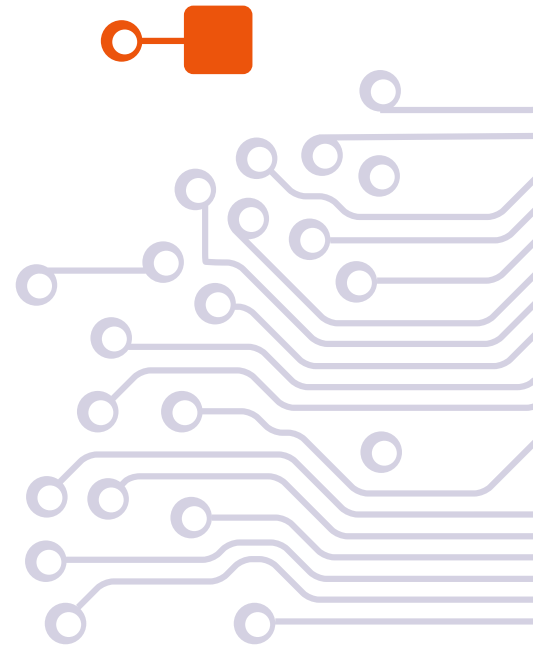

Get connected to South Africa's best mobile networks and enjoy affordable, high-speed internet for your home or business. This option is perfect for failover data solutions.

IT Solutions

At MJL Communications, our IT solutions combine superior hardware with quality-ensured software from leading partners and major brands such as Epson, Microsoft, AWS, Lenovo and Samsung to name a few. Our IT experts will create unique packages that incorporate both hardware and software solutions that will meet all your business's technological needs.

Overview of our IT solutions

- Microsoft CSP
- Office 365 and Dynamics 365

CCTV Surveillance

CCTV has become an essential tool in modern society, but it's important to note that there are different types of cameras suitable for different situations and premises. Choosing the right camera for the specific application is crucial.

At MJL Communications, we understand the importance of providing the right solution for your business. Our expert technical team partners with you to deliver the perfect CCTV solution. We offer a wide range of superior quality CCTV products, including cloud-recording solutions that elevate your surveillance capabilities.

With our network video recorders and your own smartphone or tablet, you can live stream footage from anywhere in the world in real-time, ensuring you never miss a thing. Additionally, our dedicated event notification via email keeps you informed of any activity in and around your business.

We also provide multiple user access levels and IP address filtering to ensure that your settings and recordings are saved from authorized and unauthorized users. With our CCTV solutions, you can have peace of mind knowing that your business is protected.

PRINT SOLUTIONS

**Office printers, copiers scanners
projectors, and MFPS**

Technology in harmony with ecology

MJL Communications is proud to offer a comprehensive selection of Epson business printers that can be supplied, installed, and maintained by our experienced team. These printers deliver high-quality and efficient printing that can help businesses save time and money, while also improving productivity. With fast printing speeds and advanced features like automatic duplex printing, our Epson business printers can streamline workflow and boost output.

One of the standout benefits of our Epson business printers is their cost-effectiveness. Thanks to advanced ink technology, businesses can enjoy top-notch printing quality while using less ink, thereby reducing costs over time. Additionally, our printers are designed with versatility in mind, with Wi-Fi, Ethernet, and mobile printing options, making it easy to print from any device and location.

At MJL Communications, we are committed to promoting sustainability, and our Epson business printers reflect this. They consume less power than traditional printers with heat-free technology and feature an automatic shut-off function to save energy. Additionally, our eco-friendly ink cartridges and recycling programs help reduce waste and support environmentally responsible practices.

Overall, our Epson business printers provide a range of benefits that can help businesses of all sizes improve their productivity, save money, and reduce their environmental impact. At MJL Communications, we are dedicated to providing our clients with the best possible solutions, and our Epson business printers are just one example of our commitment to quality and excellence.

EPSON®
EXCEED YOUR VISION

Scanning Solutions

Epson business scanners are designed to provide a range of benefits for businesses of all sizes. These scanners use advanced technology to provide fast and efficient scanning that can help streamline workflow and boost productivity. One of the key advantages of Epson business scanners is their versatility. They can handle a range of different document sizes and types, including receipts, business cards, and large format documents, making them ideal for a wide variety of applications.

Another benefit of Epson business scanners is their advanced scanning features. Many of these scanners offer automatic document feeders, double-sided scanning, and customizable scan settings, allowing businesses to tailor their scanning to meet their specific needs. Additionally, Epson business scanners are designed to integrate seamlessly with other software and systems, including cloud-based document management solutions, making it easy to store, access, and share scanned documents.

Epson business scanners are also known for their exceptional image quality. They use advanced technology to capture and reproduce images with incredible detail and clarity, making them ideal for businesses that require high-quality scans for presentations, marketing materials, or other applications. Furthermore, these scanners are built to last, with durable designs that can withstand heavy use and provide long-lasting performance.

At MJL Communications, we are committed to providing our clients with the best possible scanning solutions, and our Epson business scanners are just one example of our dedication to excellence. We offer a comprehensive selection of Epson business scanners that can be supplied, installed, and maintained by our experienced team. With their advanced features, versatility, and exceptional image quality, these scanners are an ideal choice for businesses looking to streamline their scanning processes, improve productivity, and enhance their overall efficiency.
